OUR SERVICES

Taclus specialises in providing a professional data destruction and shredding service. Our trusted processes ensure that our customers comply with data protection legislation (including GDPR) and with environmental regulations. Client, employee and confidential business information is treated with respect and kept secure at all times. Through our responsive, flexible and efficient service, Taclus delivers the most secure and efficient confidential information destruction service in the industry.

Based in Cardiff's industrial and commercial centre, we serve clients across south Wales, the west and south west of England with our own vehicles, and across the UK through our network of approved partners. Trust in our service is based on our rigorous internationally recognised standards, ISO 9001:2015, EN:15713 and ISO 14001:2015. We are licensed by the Environment Agency as a waste carrier and we recycle 100% of the paper we process.

What sets Taclus apart from our competitors is that we offer a comprehensive data destruction service with no hidden extras. We will quote you one clear price with no additional fees for paperwork or anything else.

Off-site Shredding

This service offers a cost-effective solution for your confidential waste needs and can include regular waste collections or one-off clear-outs. Your confidential information will be collected by security-vetted staff in tracked vehicles. The material will be transported to our site for shredding within 24 hours. You will be provided electronically with all the paperwork within the same time-frame.

On-site Shredding

This service is provided to customers who want their material shredded on-site, guaranteeing that confidential waste never leaves the organisation's premises in original form. This service is delivered via mobile shredding trucks, so we are able to bring the equipment to you. You will be provided electronically with all the paperwork within the same time-frame.

Branded product destruction

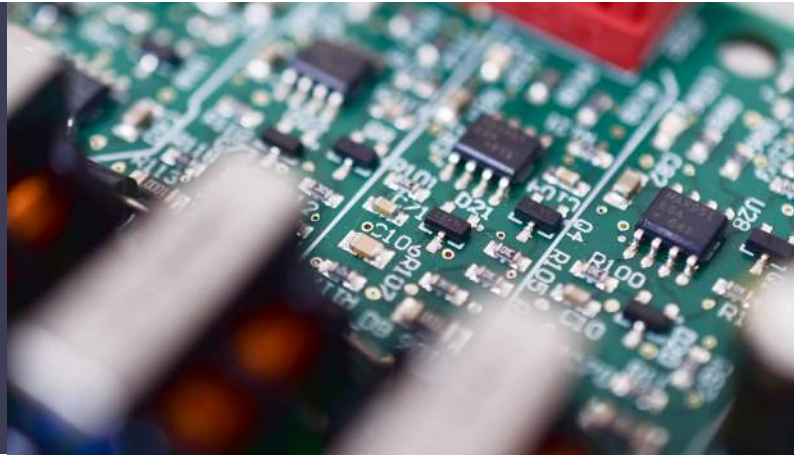

This service might include destruction of material such as ID badges, uniforms, marketing material, headed paper, contract forms or faulty products. Your products will be collected by security-vetted staff in tracked vehicles. Some larger organisations choose to have bins for the sole purpose of disposable uniforms. All branded product material will be transported to our site for shredding within 24 hours. You will be provided electronically with all the paperwork within the same time-frame.

Electronic Data Destruction

In today's digital world, confidential information can be found in a wide variety of formats. Secure media destruction services for everything from old CD ROMs/DVD-Roms, to hard-drives and flash-drives is the only way to be sure that your confidential information remains secure.

As with our shredding service, all material will be transported to our site for destruction within 24 hours and you will be provided with all the paperwork within the same time-frame.

Bins, Bags or Consoles

Choices for confidential waste storage usually depend on where you locate your confidential information. We have waste bags, outdoor bins of all sizes, or office waste consoles that fit seamlessly into your office. Regardless of how you choose to store your confidential information on site, it will be collected by security-vetted staff and transported in tracked vehicles for secure destruction, with paperwork to follow

STEP 1

Get a competitive quote for the service you require

STEP 2

Arrange a slot for collection of confidential waste, or for on-site shredding

STEP 3

Data is destroyed on site or collected at the pre-arranged time and date and destroyed under stringent, accredited, secure destruction processes.

STEP 4

Client is provided with Waste Transfer Note and Certificate of Secure Destruction electronically.

Our Accreditations

Our processes and procedures are accredited at the highest levels in the industry:

We are an authorised BS EN15713:2015. This European standard provides a framework of key conditions to be adhered to by companies who destroy confidential information on behalf of their customers.

We are an accredited ISO 9001:2015 company – proving our commitment to the needs of our clients and our drive to deliver a consistent level of quality and satisfaction in our service.

We have also achieved ISO 14001 environmental management system accreditation – evidence of our commitment to environmental responsibilities, including legal and regulatory accountabilities.

We are licensed by the Environment Agency as a Waste Carrier
